

# Who We Are

The Northwest Academy of Music was founded in 1989 as a music school for young children, offering programs which develop total musicianship skills from a very early age. These include being able to accurately identify and reproduce musical pitch vocally and instrumentally, imitate and create new rhythms, develop good sight reading skills, have a thorough understanding of music theory, create compositions using students' natural creativity, and exhibit polished ensemble skills. We strive to motivate students at their various developmental levels through song, movement, and a variety of activities that will inspire children of all ages to excel in the joy of musical pursuits.
